

## FORDLEY PRIMARY SCHOOL

### Year 1 Family Feedback from Learning Together Mornings - 2016

- I am really impressed with the way my child is learning, also the way lessons are taught
- It was lovely to have the opportunity to come in and see what the children are learning and how they learn specific tasks so we can help them at home to develop as well
- Interesting insight into how the school day works and very helpful in being able to help the children even more at home
- I really enjoyed today's session. It think it has been useful to see how the children are taught. This will help us at home with homework.
- This morning's lesson plan was excellent. It is very important to understand and value what is being taught in school, so much has changed. Very enjoyable.
- Very good group work, also challenging but rewarding. My child seemed to enjoy the challenge.
- Really interesting to see what my child really gets up to at school. He seems much more confident in his abilities than I expected, but seems to have little patience with others, especially with reading, if they don't do it as quick as he can
- It was lovely to get extra insight as to how the classes work. It'll certainly help me support my child at home. Before attending the session, I was concerned about the length, however this worry was unnecessary. Many thanks to Mrs Ryder.
- It was a pleasure to join my child at school today. He has gained lots of confidence since joining the school which is evident in his work.
- I found this very helpful in understanding how the children learn and what their strengths are so they can be supported at home
- Very good to see how the children learn in school so we can be consistent at home.
- Had a lovely morning in my child's class. Was really nice seeing how she is taught and can now carry this on at home too.
- I had a lovely morning, it was nice to see my child doing so well at school.
- It was really nice to see how the children are doing and how they enjoy school. My child seems to really love doing his work and thrives on getting his work correct.
- Great to see the children in their classrooms working well and as a group. Answered a few of my questions - thank you.
- Was really good to see my child in school. I really enjoyed seeing the way it works. Surprised that my child and the other children are coming on so well.
