

## FORDLEY PRIMARY SCHOOL

### Year 5 and Year 6 Family Feedback from Learning Together Mornings - 2015

- I really enjoyed the visit, so did my child. It was really good to join in with her class work and both literacy and numeracy classes were well run
- I really enjoyed today. I enjoyed the way the lesson was stopped to remind children points on what they were doing. The fun learning in maths with practical times tables was great.
- I enjoyed seeing how they learn and what they learn.
- I enjoyed myself and would like to do it again.
- I enjoyed working with my child and found she had more confidence in numeracy than in literacy.
- I found coming in on a 1 to 1 basis was very helpful. I was very impressed with the teachers and also with the children.
- It was excellent. Much more fun than when I was at school.
- I enjoyed my day with my child and found everything amazing - classrooms, teachers and children.
- I liked the relaxed atmosphere in the class. The children weren't put under pressure and seemed relaxed and willing to learn.
- I had a lovely morning. Nice to see how my child learns and the work he does. Also nice to see how he interacts with teachers and friends.
- I found both teaching sessions very informative. They gave a good example of how pupils are taught and the interaction between teachers and pupils.
- It's lovely to come in and work with the children and see how they get on in lessons and how they work. At parents evening we see their work but not how they get there so the morning together is really good and the kids enjoy me coming in.
- Great morning. Lovely to see my child in her class and working hard! Good opportunity to look at her work and see her interact with the other children in class.
- Great learning in class with fun added in.
- I enjoyed my morning in class. I thought it was informative and very easy to learn, and it was fun. I found that you learn more in a relaxed environment.
- Very fun way of learning. I learned a little today too.
- I found having an energetic start to lessons helped everyone switch on. My child enjoys her studies at school and the opportunities to show her school life off.
- Really interesting to see how children learn in both numeracy and literacy. Murder mystery in literacy was particularly enjoyable. An innovative way to learn about apostrophes. Both classes were enjoyable.
- A good session. There should be more of them. Good involvement of children and adults.
- My child seemed to enjoy the learning. A few kids were messing about (which got told off) but it seemed to distract a few of the other kids so had to be told to concentrate and get on with the work. The work done was good.
